Push on, pull off, this Quick Change does it all

Cutting steel is hard enough...

The Greenlee Quick Change Arbor provides much more than just rapid change-out of hole saws. Seeing is believing, and once you try it, you’ll never want to use any other arbor again! With the new Greenlee Quick Change, you’ll also have faster slug removal, eliminate the “bite” of a saw crashing into steel, benefit from better ergonomics and not have to deal with the obstructed view of the hole saw. Not to mention, only one arbor is required from 7/8” to 6”. Coupled with our heavy duty hole saws, no combination makes your job easier or provides you the durability to get the job done right.
PRODUCT FEATURES

- New arbor allows for rapid mounting or removal of hole saws
- Faster, easier slug removal
- Drill pilot hole without saw:
  1. Eliminates the "bite" when saw crashes into the steel
  2. Provides better ergonomics - reduced stress on wrist, arm and hand
  3. Eliminates obstructed view from hole saw
- Only one arbor required from 7/8' to 6' (7/16' shank recommended for hole saws above 2 1/2')
- Works with recessed light and carbide grit hole saw products as well
- Adapters re-usable to minimize costs
- 3/8" chuck drills work with all hole saws in kit
- Universal- works with any brand hole saw

SPECIFICATIONS

Shank - available for 3/8” and heavy duty 1/2” chuck sizes
