

USPS and Graybar

Graybar takes great pride in our long-standing relationship with the United States Postal Service. Graybar has been providing products and services to the USPS since 2011 under contract number 2CMR0S-11-B-1030.

Save time and money by taking advantage of your special relationship with Graybar. Today facilities are faced with the challenge of improving operational efficiencies and procuring more material – all with compressed timeframes and with limited resources. With years of experience in supply chain management and more than 290 locations throughout North America, Graybar delivers results that improve our customers' bottom line. Let us help keep your facility running with maintenance and repair solutions. Our specialized sales and service teams will listen to your needs and provide solutions to help you work better, smarter and save money.
