

How to Prioritize Your Spaces for Lighting Upgrades

So you're thinking about an LED lighting upgrade, but you have no idea where to start. The key is to start small.

One of the first things to realize is that you don't have to upgrade your whole building at once. You can take it one step at a time. Actually, most facility managers upgrade in a phased approach which helps them evaluate the lighting and get buy-in from the rest of the organization while maximizing budget.

SO WHERE DO YOU START?

When it comes to lighting, think of your building in three types of spaces.

SPACE			
	CLASS 1	CLASS 2	CLASS 3
EXAMPLES	<ul style="list-style-type: none"> ▪ Stairwells ▪ Storage rooms ▪ Restrooms 	<ul style="list-style-type: none"> ▪ Office cubicle ▪ Work stations ▪ Open office 	<ul style="list-style-type: none"> ▪ Lobby ▪ Elevator ▪ Conference room
PURPOSE	<ul style="list-style-type: none"> ▪ Highest possible safety standards ▪ Best cost 	<ul style="list-style-type: none"> ▪ High energy levels ▪ Enhanced mood ▪ Wellness 	<ul style="list-style-type: none"> ▪ Fabulous first impression ▪ Quality ▪ Integrity

NOW IT'S YOUR TURN.

Take the chart on the following page and jot down your top priorities by class for a LED lighting upgrade. By specifying priority spaces, you can find the right lighting solutions for your space.
